Providing for the Removal of the Sioux from the Black Hills.

Secretary Chandler Undecided About Resigning.

A Novel Assessment on the Treasury Clerks.

WHITE SILENT ABOUT THE BELLICOSE WOOD

FROM OUR REGULAR CORRESPONDENT.

WASHINGTON, August 21, 1876. THE SIOUX INDIANS TO BE EXCLUDED FROM THE BLACK HILLS.

The Commissioner of Indian Affairs was busily engaged to-day in completing the instructions prepared by Secretary Chandler to the Commissioners appointed for the purpose of carrying out the law in regard to the removal of the Sionx Indians to the Missouri River. They are not yet finished, but are so far very precise, firm and straightforward, refl cting the views of the President largely as expressed by him orally to the Commissioners. This is evidenced in the emphatic direction, after quoting the law of Congress, that no promise shall be made to the Indians that ill be done for them as a result of deliberations now had with them until submitted to the President and confirmed by Congress. One very distinct and creditable injunction is specified that no stipulations for the payment of money are to be made, but they are to be assured that guarantees will be carried out for feeding, clothing a d teaching them so as to make them self-sustaining. Secretary Chandler will refuse to give the Indians rations unti they consent to remove to such point on the Missouri River as the President may select. They are to give up the Black Hills entirely and to remove as far as possible away from them. The success of the Commission ers with the Sioux will depend largely, it is telt by the officials, upon the pending hostilities, which, if terminating in the defeat, punishment and capture or ariving in of the Indians, will be followed by a disposition among the hostiles, as well as the reservation Indians, to accept almost any equitable terms proposed to them by the United States government. GENERAL SHERMAN THINKS HE HAS BAGGED

THE SIGUY. General Sherman to-day informed the Commissioner of Indian Affairs that he was convinced from the plan of operations which was being carried out against the Sloux that he has bagged them. His instructions are to bear down on them at once from this time forth until they are shattered. He is very much pleased with the present attitude of affairs as reported to him from the front.

SECRETARY CHANDLER'S PERPLEXITY. Secretary Chandler is yet undecided as to what

course he will adopt in regard to resigning his position either as Secretary of the Interior or as chairman of the National Executive Committee. He will leave for New York to-morrow to spend a week in attending to the affairs of the latter, but he has already so success fully instituted many economical reforms in the Interior Department that he takes a deep pride in their management and present new system, indicating a desire to carry them out still further. He is also hopeful of solving the whole Indian question finally in a practical and effective way, with the aid of the present Commissioner, Hon. John G. Smith, in whom he has expressed great confidence. He has determined to continue at his post in Washington to see if he cannot meet all the requirements of his two-fold duties. The trip to New York, it is believed, will decide what he

WHITE, OF KENTUCKY, IGNORES WOOD.

Representative White, of Kentucky, who received the severely worded communication from Chief Engineer Wood of the navy, called at the Navy Department on Saturday, in regard to the restoration of a former officer of the navy to the position which he had resigned. The Acting Secretary of the Navy, Commodore Ammon, says that no mention what ever was made officially or otherwise by Representative White of the unpleasant personal matter between him and Engineer Wood, though it is known that he was perfectly informed by telegraph of its nuture. Much surprise is manifested here that he has taken no notice of it, and every one is at a loss to ac zount for his indifference, as he has the reputation at home of nerve and is a full bred Kentuckian.

GENERAL WASHINGTON DESPATCHES.

WASHINGTON, August 21, 1876. THE DEPARTMENT OF JUSTICE ON HALF RA-TIONS

By an error in the engrossment of the Legislative Appropriation bill which has been approved by the President there is omitted an appropriation of \$14,000 for the contingent fund of the Department of Justice, The effect of this will deprive this branch of the government service of light, fuel, ice, &z.

KICKING AGAINST THE PRICES.

Several protests have been made to the Internal Acvenue Commissioner from parties relieved of their offices by the recent consolidation of internal revenue The friends of the parties who are thus are endeavoring in strong force to the retention of their friends. The Representative in Congress from the Rochester district has applied to the Commissioner for the retention of Collector Decker, who was ousted in the recent change, and will argue the matter before the Commissioner this evening. The Commissioner says that no other changes will be made unless by removal and appointment by the President. Dr J. J. Mott has been retained as Collector in the consolidated Sixth and Seventh districts of North Carolina. The change in Georgia consists in the consolidation of the First and Third districts. McClams being retained as Collector, thus relieving Fannin, who was retained in the original order, and also the consolidation of the Second and Fourth dis tricts, with Andrew Clarke as Collector. In the original order Alabama was consolidated into a single district, but a change has now been made and the State is divided into two districts-the collectors retained being Myer, of Mobile, and Barker, of Seima.

THE FOUR AND A HALF PER CENT LOAN. Owing to the illness to-day of Secretary Morrill, who was not at the Treasury Department, the negotiations for the placing of the four and a half per cent ioan have been temporarily suspended. They will be med, however, as soon as the Secretary recovers from his present indisposition.

MORE ASSESSING OF TREASURY CLERKS. There is a movement on foot in the Treasury to raise a pool in each of the several bureaus for the beneuit of those who are to lose their places by the contemplated reductions. The plan is to assess the employes of each bureau a stated amount, the sum raised to be dis

ributed equally among the discharged ones, AN OFFICIAL AWAKENING TO HIS DUTY. District Attorney Wells has entered a suit for the United States against William P. Moran, Charles St. John Chubb and W. P. S. Sanger for \$10,000 damages, This action is sgainst the first named, who was appointed Disbursing Clerk of the Navy Department : April, 1868, as principal, and the others as sureties on the bond, and it is alleged that Moran did not faithfully execute the duties of his office, and retained and tailed to pay over \$3 292 07.

AMUSEMENTS.

REOPENING OF THE EAGLE THEATER. This charming theatre was reopened last night and a large, enthu-lastic audience was present to applaud the efforts of the management. The house has altered and brightened up during the vacation and the decorations last night looked neat and pretty. The performance began with a negro minstrel show, which was good but lasted too long. Then a Mr. Tudor entertained the audience with some extraordinary capers, which he was kind enough to explain rep-resented the antics of the harrequin, pantation which he was kind enough to explain represented the antics of the hariequin, pantaioon and clown in a pantomine. This was followed by a "laughable comedy" entitled "Lost at Long Branch," in which Mr. Sheldon created much amusement by his anxiety for the welfare of his only baby. The other characters were very subordinate and allowed the performers but little opportunity to display their talents. The performances closed with the rather ancient burliesque "Lixon," in which several local jokes were interpolated. Miss Jennie Beaudiere, who appeared, we believe, for the first time in New York, was a very fair 1xion. She has a good voice, line flagure and is a fair actress. Miss Lizzie Kelsey as Venus looked pretty, but had nothing to do, while Miss Branscombe, who played Gupid, seemed overcome with nervousness. Much amusement was caused by the Minerva of Mr. Sheldon and the Ganymede of Mr. Wid, while Mr. Richmond created a tempest of applaure by his rendering of an amusing but slightly volgar song recounting his misfortunes after slipping on a banana peel. With a little cutting of the first part of the entertainment the Eagle promises to have entered on a new and successful career.

OLYMPIC THEATRE. The novelties at this, the representative novelty theatre of the metropolis, last evening, were a nautical drama entitled the "Storm Signal" and a very clever vocalist, Miss Blanche Corelli. In the drama, which is a time honored tavorite on the stage, appeared Messrs. Grismer, Edeson, Nichols, Pierson, Bellamy and Allinsob, and Misses McAllister, Ellis and Winehester. It was the first appearance of a portion of the dramatic company engaged for the season at this establishment, and the admirable manner in which the little drama was interpreted was a lavorable angury for the success of the new management in this new venture. In a week or two Colonel Sinn proposes to bring forward more ambitious dramatic works, and to give them a pleasing framework of the choicest gems in the variety line.

KELLY & LEON'S MINSTRELS.

"Monsieur Chonfleuri," one of Offenbach's smailer operas, was presented in an English form last night at Kelly & Leon's pretty little theatre in Twenty-third The adaptation made by Kelly & Leon is a very clever and humorous one, but the fact that every one in the operetta, with the exception of McAndrews, ignores litional cork, takes away much of the interest tha would otherwise attach itself to a minstrel troupe com-posed of such excellent material as that enjoyed at this nouse. Leon is in every respect the best maio repre-sentative of female opera bonfe chiracters on the stage to-day, and in "Monsier Chonfleuri" he and Kelly are inimitable. There was an abundance of other short sketches on the bill last night that brought out the taient of the company in the strongest light.

Miss Kate Fisher appeared at this theatre last night as Lady Godiva, in a very peculiar play of the same name. A horse named "Wonder" occupied a prominent position in the cast. There were many strange features about the performance. One was the aboriginal style of elecution in which the actors and actresses indu ed, and another was the tinge of indecency that pervaded much of their conversation. The subject is one that cannot be considered as very well adapted for dramatic purposes. Still it afforded amusement to those present.

The season at this establishment was inaugurated last evening under the brightest and most cheering When the curtain rose there was not a vacant seat in the house, and later on standing room was at a premium. That the entertainment afforded general satisfaction was pretty evident from the enthus:astic demonstrations of delight on the part of the audience. The programme was excellent, being replete with some of the best elements that go far to make a variety performance en-joyable. There was a host of specialty joyable. There was a host of specialty artists, including many ciever vocalists and instrumentalists, who won rounds of approbation. Not the least prominent were the Woods, whose admirable portraitures won hearty recognition. The Sharpleys, in their musical mélange, also contributed largely to the success of the entertainment. An exceedingly humorous sketch, entitled "The Wrong Fellow." in which Miss Fannie Wood, Mr. Harry Wood and Mr. Clark Gibbs took part, provoked the heartiest merriment. Indeed there were so many textures of interest that it would almost seem invidious to make selections. What with Irish comequans, negro delineators and the other representatives of this class of amusement there was quite an interesting exhibition of talent. But, perhaps, the great attraction of the evening was the new drama written by Mr. Richard Loiesson, entitled "Sitting Bull," founded on incidents relating to the recent massacre. Taking into account the limits of the theatre and the close quarters in which that opposing elements had to work there was quite a lively picture presented of indian warfare. The scalings process was also account the limits of the theatre and the close quarters in which this opposing elements had to work there was quite a lively picture presented of Indian warfare. The scalping process was also illustrated, the trouble being, however, that the wigs were nearly all mistits and leil off their owners at the wrong moment. Sitting Bull was personated by Mr. Charles Manley, who was sufficiently bloodthirsty to satisfy the most sangunary of the enthusiastic "gods," who watched his moveents with intense interest, To Mr. Edwin Price was allosted the task of representing a newspacer correspondent in the person of Mr. Delmar, and he acquitted himself with cred t. He gave a fair insight into the character of the silent herces who fair insight into the character of the silent heroes who do their work so faithfully and who share the dangers of every situation to which they may be calledly duty. The lamented Custer was also personated, as were many other heroes of the memorable fight, the performance winding up with the slaughter of the troops. Sitting Bull had everything his own way from the begioning to the close, and while the piece was replice with tragic scenes the horrors of the carnage were considerably mitigated by the racy humor of Mr. Clark Gibbs, who, as a somewhat timid negro servant, rendered the fearful threats of the Sioux chief rather farcical. Under all the circumstances the drama was well received, and Mr. Cheva ier deserves to be congratulated for the suc-cess which marked the opening of his theatre.

GERMAN HARVEST FETE.

CELEBRATIONS AT JONES' WOOD AND HAMIL-

TON PARK. The Plattdeutschen Volksfest Society is now holding its annual celebration at Jones' Wood. The festivities begun on Sunday, and will conclude to-morrow night. The first day was one of quiet enjoyment in the wood, of which the principal feature was the presentation of a flag to the society by some ladies. Yesterday morning the festival began in earnest. At an early hour the streets in the neighborhood of the Germania Assembly Rooms were thronged with members of the society and their friends. Numerous marshals galloped about on handsome steeds and arranged the different divisions for procession. There were wagons decorated with flags of Germany and America, horses richly caparisoned, and men in gay costumes and sashes of red, white and black. Many of the houses in the neighborhood were draped with the national colors of Germany, while the American flag was observable here and there.

Some little delay was had in starting, but at half-past ten o'clock A. M. the procession moved forward in the following order:—At the head, Captain Meyer, Marshal and five assistant marshals, mounted on horseback; detachment of young men, dressed in suits of red and mounted on gaily outfitted steeds; after these came a detachment of marksmen on foot; they were about fifty in number, dressed in white suits, with their rifles slung over their shoulders. They children and fifty barouches, which contained President Gensch and the committees of other societies invited to participate in the celebration. The line of march was from the Germania Assembly Rooms, down the Bowery, through Canal, Orchard and Stanton streets, avenue A to Tenth street and Third avenue, along Third avenue to Ninety-second street, and thence along the east side Boulevard to Jones' Wood

nue, along Third avenue to Ninety-second street, and thence along the east side Boulevard to Jones' Wood. When the procession reached the resort it was saluted. It entered the wood at about two o'clock and marched once or twice about the grounds. The line was then broken and the people composing it scattered through the park and began the day's pleasures. There were altogether between three and four thousand people upon the grounds, which included representations from the following visiting societies:—Weser Bund, Saxonian and Thurniger Canstadter societies. Of the ladies' societies there were the First German Empress Augusta Society, Queen Pauline Society, Benevolent Society Hermonia and Benevolent Society Moguntia. The ladies' societies were under the command of Marshal Henry Fahir.

Throughout the alternoon and evening the scene in the park was one of unsulfied pleasure and amusement. All of the buildings and stands were gayly decorated with German and American flags; while among the crowds of people could be seen persons dressed in the gay Tyrolean and Bayarian costumes. The best of feeling reigned upon all sides, and various objects of anusement manifested themselves upon every Land. There were Tyrolean and Bayarian songs; there were wheels of fortune and puppet shows, and there was dancing in the larger hall. A gas balloon was sent up in the afternoon, which landed upon Rockaway Beach. At nightful there was tight rope walking and acrobatic performances; and in the evening a fine display of fireworks.

The programme for to-day includes the usual festivi-

ireworks.

The programme for to-day includes the usual festivities and a tub race in the atternoon, and in the evening a representation, on the East River, from the war of 1845, of the explosion of the steamship Christian the Eighth. To-morrow night there will be a representation upon the river of the naval fight between the Monitor and the Merrimac.

THE HESSIAN VOLKS-FEST.

Among the great volks-fests commencing yesterday was that of the Hessians, for which elaborate preparations had been made. The festivities were begun by a procession, which formed at Houston street and Secand avenue in the morning and marched to Hamilton Park, on Third avenue and Sixty-ninth street. There were about 700 persons in line, including Company A of the Eleventh regiment of the National Guard, which beaded the procession Immediately following was a representation of the last Hessian Duke, surrounded by a number of his body guard; a company of Hessian grenadiers in the same uniforms worn by their ancestors at the battle of Trenton in 1776; several Turner societies, students of the universities of Marburg and Gies. on, and some Hessian knights of centuries ago. There were also Hamburg Jaegers. Darmstudter sharpshooters in their handsome uniforms of green, and the Fifth regiment, National Guard, drum corps. Among the many handsomely decorated wagons were those containing representatives of Columbia, Hessia and Germania; an artificial representation of the Rhine and an alregory of "Die Wacht am Rhein:" a wagon containing the characters of an olden time wedding, all being in the costume of Hessia of those daya. Upon arriving at the park the procession, as it filed into the gates, was received with a sainte of artiflery, and a speech of welcome by the President, Major Sebastian Zurchleg, of the late Fifty-fifth regiment, National Guard. The park was soon filed, Among the societies not mentioned in the procession were the Katten Club, the Frankenberg Society. Suekenberger Society and deputations from the Cunstader, Bavarien, Saxonia and Platt Deutsch societies. Festivities were at once commenced. Dancing, national games, dancing around a May pole, sack racing, climbing greased poles, shooting and other divertissements gave enjoyment to the older people, while the children gazed enthusiastically at Punch and Judy shows and kindred amusements. One of the features of the park was a house representing Napoicon's prison at Williamshohe, with the captive mon-rch gazing from the window. The tume of Hessia of those days. Upon arriving at the

resenting Napoteon's prison at Williamshohe, with the captive mon-reth gazing from the window. The man representing Napoleon is to be kept in the room during the continuation of the "lest" and will not be allowed to leave under any pretext.

At nine o'clock last evening a representation of the siege of Gaisburg, an episode in Hessian history, was given by the soldiers, after which a grand display of fireworks closed yesterday's programme.

To-day there will be national games, with dancing, &c., in the afternoon; a torchlight parade and fireworks in the evening. On Wednesday there will be a race between the Hessians and the Platt Deutsch in the afternoon and in the evening a parody of the "Flying Dutchman," balloon ascension, a sham battle and freworks. It is estimated that about 4,000 persons visited the park yesterday.

THE SCARSDALE MYSTERY

The particulars concerning the finding of a headless corpse near the line of the Harlem Railroad, at Scarsdale, which appeared exclusively in the HERALD of yesterday, have caused quite a sensation in Westchester county. Taken altogether—the fact that no man answering the description is known to be missing, that although the remains had on such clothing as would indicate a person above the necessity of daily toil, no effects whatever were found upon the body, and, strangest of all, the severing of the head and its having been conveyed to another place-it is generally regarded as one of the most mysterious affairs occurring in that section during the memory of the oldoccurring in that section during the memory of the oldest inhabitant. As the belief generally expressed is that none other than human agency could have been employed in the decapitation and removal of the head, the inference seems almost irresistible that the unknown did not die a natural death, or that the case is not even one of suicide. It is now probable that the affair will undergo a thorough investigation at the hands of the county authorities, Sheriff Carpenter having yesterday expressed his intention to leave no means untried to establish, if possible, the identity of the deceased, in the hope that by this means some clew may be obtained that will throw light on the manner of his taking off. In this effort it is understood that the Sheriff has been assured of active assistance from two or three of the most important towns in the county. or three of the most important towns in the county
